

Wisconsin PyCamp™ 2014

The Original Python Boot Camp Meets the 2nd Annual Plone Symposium Midwest

Plone Symposium Midwest has teamed up again with PyCamp, the ultra-low-cost Python Boot Camp for beginners. PyCamp makes you productive so you can get your work done quickly. Python is used in a variety of applications from bioinformatics to geographic information systems to motion picture production. PyCamp emphasizes the features which make Python a simpler and more efficient language. Following along with example Python PushUps speeds your learning process in a modern high-tech classroom. Register today for training in the programming language used by Google and NASA. Learn to create your own Python modules in just five days. PyCamp is conducted on the campus of the University of Wisconsin Oshkosh during the five days leading up to Plone Symposium Midwest.
